

MCR-100 Teller Cash Recycler

CASSETTE BASED • COST EFFECTIVE • COMPACT • PERFECT FOR REPLACEMENTS

The MCR-100 is a cassette based TCR. Designed to be simple, compact, and cost effective. The MCR-100 is perfect to replace many existing TCRs without concern of physical branch modification. Replacement of aging TCRs will provide new cassette based technology with higher speeds and greater recycling capacity.

The cash management technology of MCR-100 is equipped with a next-generation cash recycler that contains the essentials of 12 years of in-house technology development.

Flexible cassette configurations utilizing any combination of full or split cassettes. The cassettes are the same as utilized by the LTA-450.

Six (6) denomination recycling provides recycling capacity up to 9000 notes.

The MCR-100 can support multiple users.

Easily integrates into your existing teller applications.
